Practice worksheet - Biological Molecules

GCE Advanced Level - Biologie - Fiche d'exercices

Complete each exercise on paper, writing every step of your reasoning, then compare with the separate answer key.
Fais chaque exercice sur une feuille en detaillant ton raisonnement, puis compare avec le corrige separe.

1. Which family is the main immediate source of energy for a cell?
Quelle famille est la principale source immediate d energie pour une cellule ?

2. What is the monomer of the carbohydrate polymer starch?
Quel est le monomere du glucide polymere qu est l amidon ?

3. Proteins are polymers of which monomer?
Les proteines sont des polymeres de quel monomere ?

4. Which two parts are joined to make a lipid?
Quelles deux parties s unissent pour former un lipide ?

5. What is the monomer of DNA?
Quel est le monomere de l ADN ?

6. Iodine turns blue-black when it meets which molecule?
L iode devient bleu-noir au contact de quelle molecule ?

7. Which is the monomer of proteins?
Quel est le monomere des proteines ?

8. Which molecule is the immediate energy source for cells?
Quelle molecule est la source immediate d energie des cellules ?

9. Nucleotides are the monomers of which family?
Les nucleotides sont les monomeres de quelle famille ?

10. A lipid is made from glycerol joined to which partner?
Un lipide est fait de glycerol uni a quel partenaire ?

11. How many families of biological molecules are described in this lesson? Give the number.
Combien de familles de molecules biologiques sont decrites dans cette lecon ? Donne le nombre.
